

It is time for Project Governance !

The high cost of low performance

- Met original goals/business intent
- Completed within original budget
- Completed on time
- Experienced scope creep
- Failed project's budget lost
- Deemed failure

PMO?
Where will it fit

According to PMI's 8th Global Project Management Survey: US\$122M were wasted for every US\$1B invested due to poor project performance.

As we continue to see worsening project outcomes coupled with disruptive global trends, and an uncertain economy, it is time for senior management to embrace governance in organizational projects development, to rethink the roles of PMO in the context of reducing the risks of non-performance and integration to stakeholders value and sustainable outcomes.

Join to learn from the experts, the reality of the current state of project governance, the challenges and tips of implementing effective PMO.
