**Stay Relevant !  
Prepare Yourself Today for  
Complex Projects of Tomorrow**

**INDUSTRY 4.0**  
AI, Robotics, IoT, Big Data, Cloud  
Supply Chain, LEAN, Gamification  
**HEALTH CARE**    **Unemployment**    **FinTech**  
Aging Society    **AgriTech**    **BLOCKCHAIN**  
Medical Paradigm Shift    **CLIMATE CHANGE**

The world of tomorrow is highly destructive, complex, uncertain and nonlinear. Business, government and individual who could not cope with this environment will be at risk of becoming irrelevant.

What are these destructions? What is required by PM to stay relevant? Is the newly released PMI PMBOK® Guide 6<sup>th</sup> ed. 2017 with emerging practices sufficient to guide PM to navigate these complexity?

Join us to learn and share what are the emerging trends and challenges of tomorrow projects, and get your self prepared today !
