**PRE FORUM
WORKSHOP**

**AGILE
Leadership**

**11-12 Oct 2018
(14 PDUs)**

Today's rapid changing environment require leadership with an "Agility Mindset" of a fighter jet pilot. You need to be highly focus to your mission, at the same time adaptable to changes, comfortable with stress and ambiguities, like the pilots navigating their fighter jets into the enemy air space. Agile Leadership will change the way you see yourself, your strengths, your priorities, and your long-term goals to help you to realize your career aspirations, and advance your organization's goals, by promoting positive mental activities which lead to positive **VALUES in ACTION.**
